

Sunderland College SEN Local Offer

<p>1. What do we mean by our Local Offer?</p>	<p>This is a report that encompasses everything we offer for your son/daughter with regards to their special needs.</p>
<p>2. How can my son/daughter attend Sunderland College?</p>	<p>Sunderland College caters for young people with identified learning difficulties and or disabilities from the age of 16 with an Education Health Care Plan. If you would like your child to attend Sunderland College, you should discuss this with their current school or alternatively you may contact your local authority SEN department or Connexions team. They will then advise you on what steps should be taken. Parents and carers are always welcome to visit Sunderland College before making a decision about a placement. Once a placement is agreed, we will work with you to support your child in this transition period.</p>
<p>3. How will my son/daughter be supported and prepared before/after attending/leaving Sunderland College?</p>	<p>The transition into college for your son/daughter can start in their last academic year at school this could be either year 11 or year 13. Once an application has been made, your child would be invited to attend an admission interview to discuss their chosen course of study, their current support needs and enable them to see the facilities on offer to further inform their choice. For those young people who require a more focused transition e.g. young people with more complex medical needs, arrangements are made with their current school for college staff to link with school staff to gather additional supporting information on both the academic and support needs of the young person. The information gathered would lead to an individualised and comprehensive transition plan. Connexions, Social Care and Health also play an important role in the transition process. If at any point during the transition procedure it is felt that other professionals may enhance this process, then they will be contacted. This usually takes the form of a multi- disciplinary meeting. This enables all those who are/will be involved in your son/daughter's future placement to come together and discuss how best to make their transition as smooth as possible.</p>

<p>4. How will my son/daughter be transported to Sunderland College?</p>	<p>Your son/daughter may have had transport provided by the local authority to attend school, but this can be dependent upon the distance from home and whether the young person is capable of travelling independently.</p> <p>If there is a need for this transport to be provided for your son/daughter to come to college, parents will need to liaise with the local authority education transport department to make a new application for transport.</p> <p>For those young people who are able to become independent travellers, they may be provided with travel training either by their current school or college staff during their transition period or commencement at college to develop this skill.</p>
<p>5. How will the curriculum be matched to my son/daughter's needs?</p>	<p>The curriculum and students' timetable will be individualised to the needs and abilities of the young person. Students will be given appropriate support in order that they experience success.</p> <p>Teaching staff will use a range of creative teaching strategies to engage all students in all areas of the curriculum.</p> <p>Students follow a programme that enables them to achieve external accreditation where appropriate for the work they are able to produce.</p>
<p>6. How will I know my son/daughter is making progress at College?</p>	<p>Teaching staff review progress that the students make on a daily basis and communicate information to parents through a variety of means including;</p> <p>Home/school diary (if applicable for individual need), telephone conversations, parents evenings, termly progress reviews and education health care plan review meetings.</p> <p>Teaching staff set focused targets, these targets are incorporated into the delivery of lessons.</p> <p>If teachers have any concerns about the progress a student is making they will develop a plan to identify the main barriers to learning and develop strategies to increase the progress made. As a College we recognise the contribution that parents and families can make to improve the progress of students, through implementing homework, activities to be completed at home, and regular consultation.</p> <p>Parents/Carers are welcome to come into college to discuss their child's progress at any point in the college academic year.</p>

<p>7. What specialist resources, services and expertise are available at or accessed by Sunderland College?</p>	<p>Under the co-ordination of the College Learning Support service a range of specialist support is available for students with more complex support needs including those with:</p> <ul style="list-style-type: none"> • Learning Difficulties and/or Disabilities • Physical difficulties and/or mobility problems • Medical conditions • Sensory Impairments (vision/hearing loss) • Specific Learning Difficulties (e.g. Dyslexia, Mental Health, Autism Spectrum Disorders, Emotional and Behavioural Difficulties) <p>All full-time and part-time students are entitled to (additional) learning support and there is a wide range of specialist support available including:</p> <ul style="list-style-type: none"> • Access arrangements for exams • Learning Mentor • Personal Care • Teaching materials in alternative formats (e.g. Braille; large print; audio; coloured overlays; specialist software; coloured paper) • Qualified Teacher for the Blind • Support from Communicators/Readers • Help with access and mobility • Educational Psychologist/ SPLD Assessor • Specialist tutorial • Group support in class • 1:1 support outside of class <p>Depending on the need of the individual student, Sunderland College has access to a wide variety of services, these are:</p> <ul style="list-style-type: none"> • CAMHS-Child and Adolescent Mental Health Service • Autism Outreach Team • Connexions • Children and Young People Services

College day/extra-curricular activities?

Society, Japanese Society and the Duke of Edinburgh's award.
Taking part in a wide range of experiences and learning opportunities will not only make your students' time at Sunderland College more enjoyable, but it will also help them to stand out from the crowd when applying for jobs and other career opportunities.

Sunderland College also offers the Together Activity Group which creates opportunities for students from all backgrounds to get together and create a project that provides a relevant service for young people by allowing them to lead and shape its every aspect.
TAG aims to lift barriers to participation through;

- Enhancing opportunities
- Building Friendships
- Promoting engagement in positive activities
- Supporting individuals
- Facilitating entry into further education or employment

These opportunities will be available through breakfast, lunch and evening activities in and around Sunderland College as well as within the local community. Additional events will be held throughout the year to raise awareness and celebrate the achievements of young people involved with the project.

11.How can I, as a parent, be involved at Sunderland College?

The partnership between parents/carers and college is crucial to provide your child with a personalised curriculum that best supports their specific needs. Following admission there are many opportunities for us to continue working together, sharing information and answering questions you may have. Formal and informal contact is actively encouraged. In addition to the use of home to college diaries (if applicable to the needs of the learner) and phone calls, listed below are some of the many ways in which you can be involved:
Attending annual review meetings/multi-disciplinary team meetings/appointments when appropriate
Attend parents evening to learn more about the progress of your child.
Completing surveys and questionnaires as to gain your views in order to improve our offer to your child.
Attend/Support fundraising activities.

12.How can I support my son/daughter's

Providing College with information re appointments or medical updates. Your

<p>needs?</p>	<p>son or daughter's attendance and welfare is paramount to us so please let us know before they attend any appointments or if there are any changes to medication. This ensures that we keep records up to date and accurate and care for your son and daughter in the best possible way.</p> <p>Attending appointments, parent evenings or meetings with College staff. Information and assistance you can give is of great benefit and ensures we can do everything to care and support your child while at college. During these meetings you can raise any concerns you may have and help shape future curriculum decisions for your child.</p> <p>Use curriculum advice and activity ideas from Tutors/Lecturers.</p> <p>Homework.</p> <p>Throughout your child's time at Sunderland College we expect that you will take an active role in supporting their learning. You will always be made aware of your child's targets and we hope you will help develop them in their daily lives outside of college. From time to time, the teacher will send activities home or ask for information as part of topic based work in college. We really appreciate your support in this matter.</p>
<p>13.What support will there be at Sunderland College for my son/daughter's overall well-being?</p>	<p>Sunderland College's core values of Inspiring, integrity, adaptability, innovative and Professional underpin our approach to learners and learning.</p> <p>All staff take safeguarding of learners very seriously and have the required level of Safeguarding training as well as a designated team of staff with more in depth training.
