Course Information

Who is this course for?

Anyone 19+ looking to improve their maths skills and gain a qualification.

What do you need to apply for the course?

If you wish to undertake the course you should be aged 19 or over. You do not need any prior qualifications as assessment will take place at enrolment to identify your correct level.

What are the key things you'll learn?

- Methods for addition, subtraction, multiplication and division
- Percentages
- Fractions
- Ratio
- Range and Mean
- Rounding up/down
- Area, volume and perimeter
- Interrupting and recording data
- Shapes

How will you learn?

Attendance is once a week for 10 weeks. You will work through a series of tasks and activities designed to reinforce the learning process and demonstrate your knowledge.

Where could this course take you?

After successfully completing the course, you will be able to further your own continuous development, which may improve your career prospects or enable you to progress to further training or higher education.

What costs will you incur?

The course is free and all materials are provided.
